

MARTIN
Technologies Private Limited

QUALITY POLICY

Brief Profile:

MARTIN Technologies Private Limited (MTPL), established in 2017 and headquartered in Chennai, India, is a 100% subsidiary of **MARTIN GmbH**, one of the world's leading and most experienced technology providers in the Waste-to-Energy sector. Building on more than a century of MARTIN experience and innovation, MTPL serves as the Group's engineering and industrial hub for India and Southeast Asia, delivering proven MARTIN and LAB technologies adapted to regional market requirements.

MTPL provides the **design, engineering, procurement and supply of core Waste-to-Energy technologies**, including waste combustion, boilers and heat recovery, and flue gas treatment systems. By combining **proven European technologies and engineering standards with competitive industrialization and a strong regional supply chain in India**, MTPL is committed to delivering reliable, high-performance and sustainable solutions that consistently meet customer requirements and applicable quality standards.

Quality Policy:

MARTIN Technologies Private Limited is committed to provide innovative and competitive solutions in the fields of Environment and Clean Energy, with a focus on achieving sustainable leadership in the Asian market.

We strive to be a dynamic and evolving organization, responsive to both internal and external customer needs.

Our delivery model is based on established, maintained, and continual improving processes, with the active participation of all employees. A robust system ensures that this policy is integrated into daily operations, with a particular emphasis on safety practices.

The key performance indicators for these processes include:

- Customer and stakeholder satisfaction
- The quality and performance of our products and services
- On Time delivery of products and services
- Operational efficiency and overall productivity
- A disciplined approach to optimizing costs
- Minimizing the environmental impact of our activities
- Compliance on Statutory requirements like Legal, Environmental, and nations.

MARTIN Technologies Private Limited is committed to sharing this policy with all interested parties and stakeholders.
